## WHAT TO DO IN CASE OF A CRASH

1. Call 911. Wait for the police. Do not be swayed by the "I have to get to work" speech from the other driver.
2. Exchange information with the other driver as soon as possible.
3. Get the names and contact information for all witnesses even if it's clear who is at fault.
4. Take Pictures.
5. Do not give a recorded statement to any insurance company, including your own, until you have spoken with us.
6. Seek treatment for your injuries immediately.
